

# Superstars - Spring Term 2020

## Week 2 Pop - Younger (Jonas Blue & HRVY)

Someday, we'll be a million miles away  
Waking up on Monday morning  
Wishing it was Saturday  
Kids screaming out, no warning  
This'll be a distant memory  
I can hear the future calling, let it wait

'Cause you know that we got time to get ourselves together  
We got time for us  
So baby let's waste our time like we'll be young forever  
Stay forever young  
When we were seventeen, feels like just yesterday  
Living a lucid dream, those years just fall away  
One day we'll be thirty three before we're old and gray  
Let's still be seventeen like yesterday

Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together

Always, you'll always be my fantasy  
Even when we're grown up know that, I love you better than  
today  
One day we'll be dancing slowly, but for now I'll make it rain  
I can see the future calling, let it wait

'Cause you know that we got time to get ourselves together  
We got time for us  
So baby let's waste our time like we'll be young forever  
Stay forever young  
When we were seventeen, feels like just yesterday  
Living a lucid dream, those years just fall away  
One day we'll be thirty three before we're old and gray  
Let's still be seventeen like yesterday

# Superstars - Spring Term 2020

Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together, let's stay younger together  
Let's stay younger together
